

The menu offered something for everyone , well balanced , well cooked and well presented. Hearty food for the colder winter months.

The portions were very generous some might say too much but not the men on my table!

The servers were smart enthusiastic and polite if a little rushed.

It was great to have the menu explained and questions on the food and cooking techniques answered well.

I thought the food was the best we have ever had at bistro.

The starter was very tasty and had lots of flavour to it.

The main course was just divine: creamy mash, beef so tender it just melted in your mouth, yummy roasted veg and absolutely delicious gravy. It was a winner all round!

The dessert although very rich combined flavours very well and was beautifully presented.

I thought the 2 girls doing front of house were very well mannered and extremely attentive.

I liked the way Simon helped the less confident students to come and explain how they had cooked their food. Great evening-as usual

Thank you!

We 3 all enjoyed the meal very much & have no negative comments to make, the soup was nice & very filling, the meat was absolutely lovely just fell apart, & the dessert was delicious. The students at front of house were lovely & so polite. Thank you to all those concerned in making it a very enjoyable evening
